

## Lay Ministry Training Program REQUIRED TECHNOLOGY AND SUPPLIES

The Lay Ministry Training Program is an online-facilitated, Christian learning community dedicated to equipping God's people to serve in their local churches.

- ◆ We will use "Zoom" video conferencing for most of the class time. Being able to see and hear and interact with each other is not only essential for learning but part of how we build community.
- ◆ We will use "Trello" boards which is a management system to help us manage projects and tasks in a central place. On the board, you find assignments and class announcements, and be able to participate in written discussions.

### Tools you will need to participate:

- ◆ A computer, notebook, tablet, or smartphone.
  - ◆ If using a tablet or smartphone, a Bluetooth keyboard is highly recommended.
- ◆ A printer
- ◆ An internet connection (10+ Mbps upload speed recommended for smoother video)
- ◆ "Zoom" Application for your device
  - ◆ Register for a "Zoom" account (the free one is fine) <https://zoom.us/>
- ◆ "Trello" Application for your device (if a tablet or smart phone)
  - ◆ Register for a "Trello" account (the free one is fine) <https://trello.com/en>
